

article number **IN991070**
design **M80 x 1.5**

sensing range non-flush **50mm**

- ✓ housing made of stainless steel
- ✓ high sensing range
- ✓ integrated amplifier
- ✓ short-circuit and reverse polarity protection
- ✓ 2 years warranty
- ✓ 2m silicone cable

**usable up to 160 °C
high sensing range**

technical data

| | |
|--------------------------------|--|
| sensing range S_n | 50mm, necessary metal free zone: 100mm |
| real sensing range S_r | $S_n \pm 20\%$ |
| voltage drop (max. load) | < 2V |
| supply voltage | 10 ... 40V DC |
| max. output current | 150mA |
| switching frequency | 50Hz |
| current consumption | < 8mA (supply voltage 24V DC) |
| degree of protection (EN60529) | IP67 |
| ambient temperature | -25 °C... +160 °C |
| output function | pnp, no |
| connection | 2m silicone cable |
| hysteresis | 3% - 20% of S_n |

connection

bn=brown, bk=black, bl=blue
